

Seychelles ballard power systems inc

Who is Ballard Power Systems?

Ballard Power Systems Inc. is a developer and manufacturer of proton exchange membrane (PEM) fuel cell products for markets such as heavy-duty motive (consisting of bus and tram applications), portable power, material handling as well as engineering services. Ballard has designed and shipped over 400 MW of fuel cell products to date.

Who is Ballard fuel cell company?

Ballard becomes the first fuel cell company to power buses for more than 10 million cumulative kilometers of revenue service. Strategic partnership formed with Zhongshan Broad-Ocean Motor Co., Ltd. of China. Formation of a joint venture with Guangdong Nation-Synergy Hydrogen Power Technology Co. Ltd to produce fuel cell stacks in China.

Why should you choose Ballard's fuel cell power products?

Benefitting from our vertical integration - ranging from Membrane Electrode Assembly (MEA), bipolar plates and stack design to complete system integration - Ballard's fuel cell power products deliver proven durability, reliability, and high power density with the lowest total cost of ownership. Explore our fuel cell products.

What did Ballard do for a living?

Ballard signs a long-term engineering services contract to advance Volkswagen AG fuel cell automotive research program. Acquisition of Dantherm Power (DK) which became Ballard Power Systems Europe. Deployment of 20 Ballard-powered fuel cell buses in Whistler, BC in conjunction with the 2010 Winter Olympics and Paralympic Games.

What is the power density of a Ballard fuel cell stack?

Ballard fuel cell stack achieved a power density of 700 watts per kilogram. First fuel cell bus presented by Ballard in Vancouver, Canada. Collaboration agreement between Ballard and Daimler-Benz for the joint development of a compact, high power density fuel cell stack. Ballard IPO listed on the Toronto Stock Exchange (TSX).

What is Ballard's strategic partnership with Zhongshan broad-ocean Motor Company?

Strategic partnership formed with Zhongshan Broad-Ocean Motor Co., Ltd. of China with an equity investment of \$28.3M. Launch of Ballard's 7th generation FCveloCity™-HD module for motive applications. Ballard signs a long-term engineering services contract to advance Volkswagen AG fuel cell automotive research program.

From 45kW to 360kW net power, Ballard's heavy-duty fuel cell modules offer flexible and reliable solutions for your transportation and power generation needs. Powered by Ballard's unique PEM fuel cell stacks, our

Seychelles ballard power systems inc

modules are designed to meet the mechanical, electrical and environmental requirements of the most demanding applications.

Ballard Power Systems Inc. engages in the design, development, manufacture, sale, and service of proton exchange membrane (PEM) fuel cell products. The company offers its products for power product comprising for bus, truck, rail, marine, stationary, and emerging market, such as material handling, off-road, and other applications.
