

Caustic soda, also known as sodium hydroxide(cas1310-73-2), is a widely used chemical in various industries. It is available in different forms, such as flakes, pearls, and liquid. In this article, we will compare the advantages and disadvantages of caustic soda flakes and pearls, and provide some tips on how to choose the best form for your needs.

As the temperature of the solution increases, the kinetic energy of the molecules increases, making it easier for them to overcome the intermolecular forces that hold them together and dissociate into ions, resulting in a higher electrical conductivity. Glacial acetic acid(GAA CAS64-19-7) is pure acetic acid that contains no water.
