

Sierra Leone solar panel

Why is solar energy important in Sierra Leone?

We prioritize the use of renewable energy sources such as solar power to reduce greenhouse gas emissions, mitigate climate change, and preserve natural resources. By harnessing the abundant solar energy resources available in Sierra Leone, we contribute to a cleaner, greener future for generations to come.

How many solar mini-grids are there in Sierra Leone?

There are 94 solar mini-grids in Sierra Leone, with an installed capacity of 5MW, that are being constructed under the Rural Renewable Energy Project funded by DFID. The project is expected to complete by December 2021.

How many solar street lights are installed in Sierra Leone?

The Ministry of Energy Sierra Leone has installed 8471 solar street lights in the fourteen district headquarter towns across the country. These facilities were handed over to the various district councils, city councils and local councils in 2017.

Why should you choose a solar mini-grid solution in Sierra Leone?

By harnessing the abundant solar energy resources available in Sierra Leone, we contribute to a cleaner, greener future for generations to come. Ready to experience the benefits of off-grid solar mini-grid solutions?
