

Sigora solar Tajikistan

What is Sigora International?

Sigora International is an energy technology development and micro-utility company set to take electrification to the 1.2BN people without energy access. Recognizing the replicability and scalability of the Haiti micro-utility business, it was created by [Name].

Who founded Sigora Solar?

In 2011, Andy Johns founded Sigora Solar in Virginia. He led the company to become the #8 fastest growing energy company in the United States, an Inc.500 company recognized as the 'cleanest' in its field. He also founded and financed Sigora Haiti and developed the country's first private utility company providing clean, reliable and fairly-priced electricity.

Can Sigora help expand energy access?

Sigora stands to tip the balance in expanding energy access by making micro-grids an investable proposition. Conventional metering infrastructure provides zero visibility into grid operations while cash-based and post-pay systems leave utilities susceptible to payment default, billing errors, and outright fraud.

What is a Sigora meter?

Sigora meters allow utilities the option to leverage existing assets and implement a captive portal for internet access that can provide a new, high-margin stream of revenue. Hardware and software engineered for affordability and widespread adoption reduce labor-intensive O&M.

How does Sigora work?

By re-imagining what a meter can do, Sigora makes it possible for utilities large and small to build bankable grids in unconnected and underserved communities. Sigora stands to tip the balance in expanding energy access by making micro-grids an investable proposition.

How many Sigora meters are deployed on the Môle-Saint-Nicolas micro-grid?

1,200 Sigora meters are deployed on the Môle-Saint-Nicolas micro-grid operated by Sigora Haiti, which was awarded "Best Micro-grid Project" at the CREF awards, which recognize the most innovative and financially compelling renewable energy projects in the region.
