

What is Noriker Power?

Noriker Power, headquartered in Gloucester, UK, is a company that has developed and constructed over 250 MW of battery storage across the UK and has a near term pipeline in excess of 500 MW in battery storage, hybrid energy, and stability service projects.

Is Equinor acquiring Noriker Power Limited?

Equinor has signed an agreement with Noriker Power Limited, a leading battery storage developer in the United Kingdom focusing on the engineering and project development of utility scale storage and stability services. The agreement includes the acquisition of a 45% stake in Noriker, with an option to acquire the full company at a later stage.

Who is Noriker?

Noriker was one of just two companies in the UK to go live at the launch of National Grid's challenging Dynamic Containment service in September 2020, thanks to our innovative approach in the design and implementation of our proprietary control system.

What does Equinor do with Noriker?

Equinor and Noriker enter a development co-operation agreement. The agreement includes the acquisition of a 45% stake in Noriker by Equinor, with an option to acquire the full company at a later stage. In addition to the equity investment, Equinor are granted the opportunity to directly participate in projects being matured by Noriker.

Does Equinor have a stake in Noriker?

The agreement includes the acquisition of a 45% stake in Noriker, with an option to acquire the full company at a later stage. In addition to the equity investment, Equinor and Noriker have agreed on a strategic cooperation which will grant Equinor the opportunity to directly participate in projects being matured by Noriker.

Why did Noriker build a longer duration pure battery facility?

In March 2019, Noriker commissioned a longer duration pure battery facility located in the heart of the West Midlands. The project design was responding to changing market conditions that envisaged a greater role in Asset Optimisation and the Balancing Mechanism, partly due to a fall in DFFR prices.
