Gebe wants to create a solar park at the two parking facilities on the Walter Nisbeth Road and on the roof of its power plant building. One of the reasons for creating the solar park is to gradually move away from the fossil fuels Gebe currently uses towards clean solar energy. If all goes well, Gebe will expand solar capacity to 4 to 6 Megawatt.

PHILIPSBURG - On April 24, 2014, the Council of Ministers approved a rather unique document: the National Energy Policy for Country Sint Maarten. The document has an ambitious subtitle: Towards a sustainable development. It looked like the era of renewable energy had finally arrived on the island. But more than five years later nothing much [...]

A summary of Sint Maarten's solar markets. In 2014, Sint Maarten's council of ministers sanctioned the National energy policy document. This document was supposed to usher in a new era of renewable energy in

the Caribbean Island country. More specifically, the policy document envisioned an 80% renewable energy capacity by 2020.
