

Smartflower solar panel cost British Indian Ocean Territory

How much does a smartflower solar panel cost?

Now, let's talk about the numbers. How much does the SmartFlower cost? Before applying for all incentives and tax credits, the SmartFlower solar panel system ranges in price from \$25,000 to \$30,000 with the average cost to install at \$27,000. There are two models that you can choose from, and this is why the price can vary.

What is smartflower solar?

SmartFlower Solar produces unique, ground-mounted solar panel systems that include a sun tracker and a number of other high-tech features. This 'smart' solar panel system is an all-in-one, self-sustaining system that differs greatly from the traditional monocrystalline or polycrystalline rooftop panels.

How much does a smartflower cost?

Installing a Smartflower ranges from \$25,000 to \$30,000, with the average U.S. customer likely paying around \$27,000. Pricing for the Smartflower PLUS and the Smartflower with integrated car charging is not yet available. The best way to compare solar panel system prices is to determine the electricity generation cost per watt.

What is the warranty on a smartflower solar panel system?

The SmartFlower solar panel system has a system warranty of 5 years and a module performance warranty of 25 years. This also differs from other solar panel systems that have 20 to 25-year warranties for both the system and performance. Even most ground-mounted systems with sun-tracking capability have 10-year system warranties.

Is smartflower better than a rooftop solar system?

The system achieves a certain degree of self-utilization of nearly 60%, which is a significant improvement compared to a rooftop unit. A traditional rooftop solar panel has an average utilization of around 30%. Also, Smartflower reduces output losses by up to 15%.

Where can smartflower solar panels be installed?

Smartflower's solar solutions can be installed in virtually all locations across North America. The company is actively expanding its network of certified installers and is committed to securing installation services in areas where it currently lacks a presence.

Smartflower is a revolutionary solar energy system that follows the sun from sunrise to sunset.
