

Harmony Energy Income Trust (HEIT) has announced its 20MW/40MWh battery energy storage project in Farnham has been successfully energised. HEIT, a fund which invests in battery energy storage systems (BESS), stated that in achieving this key milestone for the project, the BESS is on track to be fully operational by the end of this month (June 2023).

The projects are an 80MW system at utility Idaho Power's Hemingway substation and a 40MW project adjoining the Black Mesa solar PV plant. The company is the state's transmission system operator (TSO) and ...

SSE has acquired the rights from UK company Low Carbon for the development of a 120MW/240 megawatt hours (MWh) grid-scale battery energy storage system (BESS) project in Ireland's Midlands.. The move by SSE Renewables, a branch of the Financial Times Stock Exchange-listed SSE, is part of its strategy to grow its battery storage portfolio in the country.

Green energy company EDF Renewables UK has secured planning permission for three grid-scale battery energy storage systems (BESS) in recent weeks, with a total capacity of 221MW.. The three new grid-scale ...

The Andes regional arm of utility and independent power producer (IPP) AES has started commercial operations on a project in Chile pairing 211MW of solar with a 130MW/650MWh BESS. The Andes Solar Park IV's 5-hour duration lithium-based 130MW battery energy storage system (BESS) is the largest operational BESS in Latin America, according to ...

SSE begins construction of 320MW BESS project in UK. The Monks Fryston facility is the largest battery storage facility currently being built by SSE. October 9, 2024. [Share Copy Link](#); [Share on X](#) ... SSE Renewables onshore wind, solar and battery director Heather Donald stated: "It's fantastic to have construction underway on our largest ...

The project consists of a 360MWp agriPV solar farm and the 40MW/82.5MWh BESS "Palmadula" facility, which Enerside has sold to Chint Solar, a developer and independent power producer (IPP).

Westbridge Renewable Energy has acquired Red Willow Project, a 295MWp solar photovoltaic (PV) and 100MW/200MWh BESS in Canada. [Skip to site menu](#) [Skip to page content](#). [PT](#). [Menu](#). ... a 300MWp solar PV plant and ...

Preparing to launch its first procurement project for Battery Energy Storage Systems (BESS) to support the grid and enable stalled solar photovoltaic (PV) connections, thereby allowing solar energy to be fed into the

national grid.

The Irish BESS market. While Ireland's BESS sector is still relatively small, it is very much on the rise, with some significant technical developments as well as an increased number of projects. Statkraft is currently developing Ireland's first grid-scale 4-hour BESS, a 20MW project co-located with Statkraft's own 55.8MW Cushaling Wind ...

As of 2004, Equatorial Guinea is the third-largest oil producer in Sub-Saharan Africa. With a population of 720,000, it is one of the richest country per capita in Africa 1 and its gross ...

Aside from the 100MW solar PV capacity, the Kitt Solar project is also paired with 400MWh of energy storage capacity. Arevon powers up 384MW/600MWh California solar-plus-storage site December 10, 2024

The Asian Development Bank (ADB) and the Gulf Renewable Energy Company, a subsidiary of Gulf Energy Development Public Company, have finalised an \$820m loan agreement to finance the construction of 12 renewable energy projects in Thailand.. The projects comprise eight ground-mounted solar photovoltaic (PV) plants and four solar PV ...

X-Elio is set to add a 148MW battery energy storage system (BESS) to its Blue Grass solar farm, situated in Queensland's Western Downs, Australia. The project will be built in two stages, with the first 60MW BESS mechanically complete by the third quarter of 2025 and the second 88MW BESS by the third quarter of 2026.

The European Bank for Reconstruction and Development (EBRD) will provide up to US\$229.4 million to ACWA Power to develop a 200MW/500MWh solar-plus-storage project in Uzbekistan. Due to be built in the eastern Tashkent region, the projects are owned by ACWA Power Riverside Solar, a special-purpose company owned by Saudi energy giant ACWA Power.

An aerial view of the Thorpe Marsh Green Energy battery storage project. Image: Banks Renewables. Developer Innova has been granted planning permission for a 400MW/800MWh battery energy storage system (BESS) in Cumberland, UK, while Banks Renewables has sold a 2,900MWh BESS project to West Burton Energy.

Both companies have also built other renewables projects in Arizona which aim to power Google's facilities, including the recently developed 88MW solar and BESS project in Coolidge. Google is not the only big tech company to have secured power purchase agreements (PPAs) with the Arizona utility to power its data centres.

The projects are an 80MW system at utility Idaho Power's Hemingway substation and a 40MW project adjoining the Black Mesa solar PV plant. The company is the state's transmission system operator (TSO) and also owns and operates a sizeable hydroelectric and natural gas power plant portfolio.

Green energy supplier Iberdrola's Australian subsidiary has started construction of its Broadsound Solar and Battery project in the state of Queensland. The 376MW Broadsound solar farm and 180MW co-located two-hour battery energy storage system (BESS) is expected to generate power for 145,000 homes.

Last month saw BESS units from system integrator W&A arrive on-site at the 50MW Salisbury project while construction started on the 150MW Ferrybridge project in August. Solar Power Portal's sister site, Energy-Storage.news, has asked SSE Renewables to comment and will update this article when a response is received.

RES BESS in the UK. RES has developed over 700MW of energy storage projects in the UK and Ireland and currently manages over 600MW of operational storage projects. The company has further ambitions in Scotland; last month, the firm submitted a planning application for the Corshellach energy storage project to Moray Council. If approved, ...

The project, located 20km south of Rotterdam, features six wind turbines, 115,000 solar panels and a BESS with 12MWh of energy capacity. The 150m wind turbines have a max power output of 22MW while the solar farm ...

The company plans to begin construction at the project, in Sremska Mitrovica, west of Belgrade, in 2025. The solar PV will total 180MW while the BESS facility will have a capacity of 36MWh, making the project one of the largest solar-plus-storage projects in south-east Europe, according to Fortis.

EDF Renewables North America has entered a 20-year power purchase agreement (PPA) with Arizona Public Service (APS) for a 1,000 megawatt hours (MWh) energy storage project in Arizona, US.. The Beehive battery energy storage system (BESS) in Peoria, Maricopa County, will be a stand-alone system with a 250MW capacity for a four-hour duration.

The BESS would connect to the SWIS via the Kemerton Terminal Station. Trina Solar said that the proposed BESS comprises an AU\$400 million (US\$273 million) capital investment in the SWIS. If Trina Solar gains development consent, construction of the BESS would commence in Q3 of 2026 and take around 24 months to complete.

The planning approval for the BESS comes as Balance Power recently secured a £5.1 million debt facility from investment manager Triple Point to boost Balance's solar PV and BESS pipeline. Part of the funding was used to acquire the 6MWp Roborough project from Regener8 Power, located in Plymouth, Devon.

Developer Enerside Energy has sold a project combining agrivoltaics (agriPV) and a battery energy storage system (BESS) in Italy to Chint Solar. The project consists of a 360MWp agriPV solar farm and the

40MW/82.5MWh BESS "Palmadula" facility, which Enerside has sold to Chint Solar, a developer and independent power producer (IPP).

The project would have one of the largest BESS units in the US, and by extension the world. Image: rPlus Energies. Developer rPlus Energies and utility PacifiCorp have amended an existing PPA for a solar-plus-storage project in Utah, to increase the energy storage resource's planned size from 400MWh to 1,600MWh.

While the ACEN project is the first large-scale solar-plus-storage hybrid, Energy-Storage.news has reported on several standalone utility-scale BESS projects since contracts began to be announced and projects ...

AMEA Power to build 1GW solar PV project with 600MWh BESS in Egypt. By George Heynes. September 13, 2024. Projects, Markets & Finance, Power Plants, Storage. Africa & Middle East, Africa.

We are also assisting governments to ensure the necessary regulatory framework is in place to attract private sector investment in BESS, such as in Georgia and India, and to develop pilot BESS projects in our DMCs ...

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.
