Perfectly accompanying our solar panel fixings & solar panel mounting rails. Choosing a selection results in a full page refresh. Solar Panel Mounting Brackets by Fastensol are the backbone of sturdy and reliable solar installations.

How does a solar panel stand work?

The stand provides a quick temporary solution. Then there's the adjustable grip system which means you can turn your solar panel to catch more sunlight. Alternatively, the mounting brackets can be used to fix your panel permanently in place. © Copyright 2024 Select Solar Ltd 2024. All rights reserved. Mounting systems for your solar panels.

Where can a solar panel be mounted?

(Screws, bolts & adhesive not included) Solar panels may be mounted on a pole, a ground support, a wall of a building, a building or vehicle roof, or on a boat deck. The main considerations are day long access to unobstructed sunlight and wire lengths to batteries. Appearance and ease of access for any cleaning etc. should also be considered.

How do you attach a solar panel to a roof?

Brackets are screwed or bolted to the solar module using suitable stainless steel self-tapping screws and then bonded to the roof surface using Sikaflex 521 UV adhesive. (Screws, bolts & adhesive not included) Solar panels may be mounted on a pole, a ground support, a wall of a building, a building or vehicle roof, or on a boat deck.
