

Solar business in the Sudan

What is the Guide to solar energy in Sudan?

"The Guide to Solar Energy in Sudan" is the first booklet of its kind in Sudan that targets consumer awareness at a "grass root" level, proudly developed by Clean Energy 4 Africa, and supported by several of the largest solar energy companies in the country.

Is Sudan an emerging market for solar energy?

Sudan is an important emerging market for solar energy, said Rushdi Hamid, business development manager at Saruest Investment, one of six major companies investing in solar energy in Sudan. A solar panel is seen on the roof of a house of Bank manager, Abdel Maged Khougly, in Khartoum, Sudan May 17, 2021. REUTERS/El Tayeb Siddig

What is the first-ever directory of solar energy companies in Sudan?

The first-ever directory of solar energy companies in Sudan The Guidewas officially inaugurated in a hybrid event held on March 31st, 2022 at the headquarters of 249Startups- one of the leading startup incubators in Sudan.

Why is subsidizing solar energy important in Sudan?

Second, subsidizing this field is imperative as the costs of initial installation and maintenance are high. With the Sudanese administration allocating a budget for science and technology as restricted as 0.2% of the GDP as in 2006, the consideration of adopting solar energy diminishes by time.

How much does a solar energy unit cost in Sudan?

A small solar energy unit usually costs around \$500, and for bank manager Abdel Maged Khojaly, the unit he built on his roof has helped him save the up to 9,000 Sudanese pounds (\$22) he spent on electricity every month.

Can Sudan adopt solar power?

On the other hand, there is a promising potential in adopting solar power in the country. Germany, the leading country in solar energy, averages less than 140 hours of sunlight per month in its sunniest city Stuttgart. Sudan's location allows it to receive up to 11 hours of direct sunlight daily, equivalent to 436-639 W/m² of solar energy density.

Juba-based Depo Energy: Leading solar provider powering Africa's future. 15MW+ capacity, quality systems for homes, businesses, institutions across East Africa. Depo Energy: Powering South Sudan with solar. 15+ MW installed. Sustainable solutions for homes, clinics, schools. Join the clean energy revolution! ??
