

Solar frame container Grenada

What is a solarcontainer?

The Solarcontainer is a mobile system that can be used for both on- and off-grid purposes, including rescue missions and gatherings. The foldable photovoltaic panels are tucked inside a mobile solar container. The mobile solar container can take up to five hours to assemble and make it operational.

Where can a mobile solar container be shipped?

You can easily ship it to any location in the world. In order to improve container mobility, we recommend additional container lifting jacks. Mobile Solar Containers open up new possibilities in areas with limited access to electricity. Easy transport combined with ease of use makes it a perfect solution to satisfy energy needs in remote areas.

How many solar panels can be installed in a solarcontainer?

The unfolded panels can reach up to 120 meters in length, and there are 240 solar panels that can be installed. The Solarcontainer is a mobile system that can be used for both on- and off-grid purposes, including rescue missions and gatherings. The foldable photovoltaic panels are tucked inside a mobile solar container.

What is a mobile solar container?

Mobile Solar Containers open up new possibilities in areas with limited access to electricity. Easy transport combined with ease of use makes it a perfect solution to satisfy energy needs in remote areas. Contact information. Due to the huge interest in our other industries, we had to hold Power-MOVEit.tech until further notice.

Why should you choose a 20' mobile solar container?

A huge solar area in a 20' Mobile Solar Container gives you really significant power output. Despite its size, it is easy to fold and transport to any location with a level piece of ground. Adjustable angle of solar panels. In order to improve PV efficiency, the frame is designed in a way to enable an adjustable angle.

How do Faber solar-frames work?

On site, the Faber Solar-Frames are unloaded directly with a forklift or crane, placed on existing containers and locked at the ISO corners. In the Pro version, the built-in twist locks are used for this purpose. With the Light version, you can use your tried and tested container clips. Attaching. Locking. Connecting. Solar power during the day.

We sell a container including fold-up aluminium solar wings, each made from 8 solar panels, providing 2.4kW power and wired to the pre-fitted technical room inside the container. We offer a highly portable container, designed as a shop space, to load portable batteries, to filter water and sell clean water & energy.
