

Infolge der hohen Strompreise und der veränderten sicherheitspolitischen Lage boomt in Schweden das Interesse an selbst erzeugtem Strom aus erneuerbaren Energien wie der Solarenergie. Die Zahl der netzgekoppelten Anlagen in Schweden stieg von 66.000 auf mehr als 92.000 im Jahr 2021.

Nearly 140 000 Swedish small house owners have now invested over 8 billion Swedish Krona (SEK) in green technology, Svensk Solenergi reports. For this, they have been granted a deduction of almost 2 ...

Nearly 140 000 Swedish small house owners have now invested over 8 billion Swedish Krona (SEK) in green technology, Svensk Solenergi reports. For this, they have been granted a deduction of almost 2 billion for investments in charging boxes, batteries and solar systems, which help them to reduce their energy costs.

Solar Modules produced at SweModule by Renewable Sun Energy Sweden AB are designed for various markets and applications. High quality production, combined with strictest process control, ensure maximum lifespan and the highest performance.

Das solare Wasserstoffprojekt in Värmland ist in dänisch-schwedischer Partnerschaft von Better Energy und Nilsson Energy umgesetzt worden. Im ersten Schritt werden 30 Wohnungen komplett mit Photovoltaik und gespeichertem Wasserstoff versorgt. In der Endstufe sollen es 172 Wohnungen in sechs Wohnkomplexen sein.

Erleben Sie die Vorteile des Umbaus Ihres Hauses von einem traditionellen Dach mit sichtbaren Solarpanelen zu einem ästhetischen, modernen Solar-Dach. Entdecken Sie, wie Sie Energiekosten senken, den Immobilienwert steigern und ein stilvolles, umweltfreundliches Upgrade genießen.

To ensure safe and secure PV installations when demand increases, the Swedish Solar Energy Association

Solar fÃ¼r haus Sweden

(Svensk Solenergi) has developed a new guideline for private individuals and offers its members free certification of installers.

Rapid declines in the cost of solar photovoltaic modules have made rooftop mounted systems economically interesting in Sweden, especially large scale systems for multi-family housing. This project seeks to understand how solar PV can technically and economically integrate into the residential cooperative's energy system.

In 2023, around 100,000 solar PV systems will be installed on Swedish roofs. This is a significant increase from 2022 when 55,000 installations were made. To ensure safe and secure installations when the demand increases, the Svensk Solenergi now offers its members free certification of installers.
