HEADLINE: Supply and installation of a 140KWp Solar System at the UN House in Guinea-Bissau.
Description: In a notable stride towards sustainability, the UN House in Bissau has embraced a 140 kWp solar installation, successfully completed in 2023. Designed to amplify the utilization of clean energy sources and minimize CO2 emissions, this solar ...

In the regions of Bafatá; Gabú; Quinara and Tombali, were implemented homemade Solar Photovoltaic Systems in 2011, with the support of the Foundation Rural Energy Services and financed by subvention from the European Commission

According to Anne-Lucie Lefebvre, the World Bank's resident representative in Guinea-Bissau, the country has significant untapped solar resources, which could be the most cost-effective and rapid solution to bridge the electricity supply gap.

Rural Areas of Guinea Bissau are set to receive electricity through off-grid solar technologies through a project called the Regional Off-Grid Electricity Access Project (ROGEAP). ROGEAP will be implemented by the Economic Community of West African States (ECOWAS) and funded by the World Bank.
