Sustainable development is the belief that underlies Global Solar Bulgaria 's initiatives to protect the environment, strengthen communities and stimulate responsible growth.

What services do we offer in the construction of solar installations?

We offer a whole range of services related to the construction of solar installations - from research and evaluation to installation,maintenance and service. We strive to provide high-quality alternative energy solutions tailored to the needs of our customers.

Why should you install a solar system?

The installed PV system guarantees its owner independence and full control over his electricity costs. In most European countries,solar energy is purchased from electricity suppliers,which allows you to receive money from your solar installation. Solar installations recorded 91% lower CO2 emissions from natural gas and 96% less than coal.

Bulgarian solar panel installers - showing companies in Bulgaria that undertake solar panel installation, including rooftop and standalone solar systems. 87 installers based in Bulgaria are listed below.
