

Solar instant quote Spain

When do solar panel subsidies end in Spain?

Solar panel subsidies ended on 31st December 2023. But don't leave this page yet. There are still three important things to know: You might be disappointed to read that solar panel grants in Spain (sometimes amounting to over EUR3,000 for regular-sized solar panel installations) are not set in stone in 2024. But here's the thing.

Are solar panels still being paid out in Spain in 2024?

This question confused many people about the grants for solar panels in Spain. The EU-funded solar grants are still being paid out in 2024 even though the deadline to apply for them was 31st December 2023. As we said above, people have actually received this subsidy already.

Will solar sun tax boost Spain's energy transition?

Solar sun tax in Spain has now been abolished which will ultimately boost the country's energy transition. The Spanish Cabinet has approved a royal decree, which introduces a package of urgent measures to boost the country's energy transition.

Do solar panels reduce property tax in Valencia?

Homeowners in the Valencian region who fit solar panels on the roof of their properties to generate electricity will be entitled to a 50% discount on their IBI property tax.

The cost of solar panels in Spain varies significantly based on the type you choose. Common options include monocrystalline, polycrystalline, and thin-film panels, each with different price points and efficiency levels.
