

Solar light back bracket

What is a solar panel mounting bracket?

Refer to section "Installation handover" This solar panel mounting bracket is a robust and versatile galvanised mild steel bracketsuitable for mounting a variety of solar panels between 20W and 150W in size,against a wall or on a post.

How do solar panel brackets function?

Solar panel brackets function by being installed through fastening bolts or applying adhesive on the mounting rails onto a flat surface. Solar panels should be installed at an angle to allow the cells to receive as much sunlight as possible.

How does a solar panel stand work?

The stand provides a quick temporary solution. Then there's the adjustable grip system which means you can turn your solar panel to catch more sunlight. Alternatively, the mounting brackets can be used to fix your panel permanently in place. © Copyright 2024 Select Solar Ltd 2024. All rights reserved. Mounting systems for your solar panels.
