

The divestiture of its French solar projects marks the first realisation for BlackRock's Renewable Power platform and enables the consortium partners to foray into the European renewables power market. BlackRock Renewable Power Europe head Rory O'Connor said: "We are delighted to partner with Samsung, Samchully AMC and Schroders on this ...

This report tracks the new solar sites being scoped and planned which have reached a total planned capacity of more than 85GW across 1,257 sites (updated July 2023). This pipeline is comprised of legacy (distressed) ROC/CfD planning activity, a new raft of post-subsidy planning applications and the latest CfD projects in pot 4 of the most ...

CEOG only uses solar energy and water, and produces electricity and steam only. CEOG will supply half of the energy currently consumed by the people of Saint-Laurent-du-Maroni and Mana. CEOG industrial project's start date is planned for 2020. CEOG is currently the greatest project worldwide of a power generating plant storing intermittent ...

French Western Guiana Solar PV Park is a 55MW solar PV power project. It is planned in Saint-Laurent-du-Maroni, French Guiana. According to GlobalData, who tracks and profiles over ...

Opportunities for solar farm developers, EPCs and component suppliers are being lined up today across the Republic of Ireland, with the solar PV market in the country forecast to grow rapidly ...

Petit Saut is a 100MW hydro power project. It is located on Sinamary river/basin in Cayenne, French Guiana. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active. It has been developed in a single phase.

About Us Solar Media Ltd grew from a small start-up in 2006, to a global B2B media company reaching the entire clean energy industry. We deliver authoritative media solutions to engage audiences and fast track business relationships accelerating a global clean energy future. Our diverse portfolio of live events, news, publications and market research reports [...]

The main focus of this study is to determine the solar energy potential in French Guiana using the Kernel density estimation. The knowledge of surface solar irradiance from satellite sensor may be obtained using atmospheric or empirical models ... However the above methods are limited to meet the growing need of

real-time data and real-time

PV Tech Research's Battery StorageTech Bankability Ratings Report provides insights and risk analysis on the leading global battery energy storage systems (BESS) suppliers serving the utility scale renewables market. Released quarterly, the report offers in-depth visibility on suppliers to help guide purchasing decisions. Using rigorous bankability methodology, we create a ...

The divestiture of its French solar projects marks the first realisation for BlackRock's Renewable Power platform and enables the consortium partners to foray into the European renewables power market. ...

Policy support in the form of renewables auctions is driving solar deployment in Greece, but the sector's growth could be under threat from limited land availability, grid bottlenecks and a ...

French Guiana as a French overseas territory is heavily dependent on imported fossil fuels. It is a two-tier society where there is a large gap between the coastal and the inland areas concerning ...

French RE developer Voltalia has recently announced the commissioning of its Sable Blanc power plant combining solar photovoltaic production and battery energy storage in French Guiana. Developed entirely ...

French Guiana is a French overseas territory and an ultraperipheral region of Europe. Located in the northeast of South America, it is the largest region of France with a density of 83 534 km² and an

Voltalia is the sole winner of the fifth period of the CRE 4 tender for non-interconnected areas for ground-based solar power plants in French Guiana. The project, called "Parc Sable Blanc", ...

Voltalia currently has six renewable energy facilities in French Guiana - three solar, two biomass, and one hydroelectric, as well as battery storage units with a total installed ...
