

The divestiture of its French solar projects marks the first realisation for BlackRock's Renewable Power platform and enables the consortium partners to foray into the European renewables power market. BlackRock Renewable Power Europe head Rory O'Connor said: "We are delighted to partner with Samsung, Samchully AMC and Schroders on this ...

This report tracks the new solar sites being scoped and planned which have reached a total planned capacity of more than 85GW across 1,257 sites (updated July 2023). This pipeline is comprised of legacy (distressed) ROC/CfD planning activity, a new raft of post-subsidy planning applications and the latest CfD projects in pot 4 of the most ...

CEOG only uses solar energy and water, and produces electricity and steam only. CEOG will supply half of the energy currently consumed by the people of Saint-Laurent-du-Maroni and Mana. CEOG industrial project's start date is planned for 2020. CEOG is currently the greatest project worldwide of a power generating plant storing intermittent ...

French Western Guiana Solar PV Park is a 55MW solar PV power project. It is planned in Saint-Laurent-du-Maroni, French Guiana. According to GlobalData, who tracks and profiles over ...

Opportunities for solar farm developers, EPCs and component suppliers are being lined up today across the Republic of Ireland, with the solar PV market in the country forecast to grow rapidly ...

Petit Saut is a 100MW hydro power project. It is located on Sinamary river/basin in Cayenne, French Guiana. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active. It has been developed in a single phase.
