

# Solar package price Jersey

How much does solar cost in New Jersey?

The average cost to install a solar energy system in New Jersey is around \$23,590. This is the typical upfront cost for solar, which assumes a per-watt price of \$3.37 -- which is above the national average -- and the average local system size of 7 kilowatts (kW) -- which is smaller than what most U.S. solar customers need.

How many kWh will Jersey's solar array generate?

The 1,311 square metres, 255kWp array is expected to generate over 240,000 units a year - enough to power 33 Jersey homes using an average 7,300 units(kWhs) a year. It's the third solar array to feed directly on to the grid.

Why should you choose SunWorks Solar?

SunWorks Solar is Jersey's only dedicated PV provider, offering Solar PV to both commercial and residential properties. With more homes in Jersey powered by solar through SunWorks than any other firm, you can trust us for great service and the best suited PV system.

How much does a 4KW Solar System cost to install?

For the average 3-bedroom house in 2023, a fully installed 4KW (10 panel) solar system typically starts at around £8,000. Keep in mind that additional costs may arise for safety measures like scaffolding or concurrent property work (roofing, painting, etc.).

Who is SolarEdge?

SolarEdge is an industry leader and is at the core of SunWorks' product offering. SunWorks is the only trusted installer located in Jersey listed on the SolarEdge website. Find out more about SolarEdge and their unique, cutting-edge solar technology.

The true cost of solar ultimately varies depending on the installer and their soft costs, how they price equipment and any financing costs. Sales and Marketing Cost.
