Does Albania have a solar PV potential?

Explore the solar photovoltaic (PV) potential across 6 locations in Albania, from Tirana to Vlorë. We have utilized empirical solar and meteorological data obtained from NASA's POWER API to determine solar PV potential and identify the optimal panel tilt angles for these locations.

How should solar panels be positioned in Tirana?

In Autumn, tilt panels to 45°; facing South for maximum generation. During Winter, adjust your solar panels to a 56° angle towards the South for optimal energy production. Lastly, in Spring, position your panels at a 33° angle facing South to capture the most solar energy in Tirana, Albania.

How to optimize solar generation in Tirana?

Assuming you can modify the tilt angle of your solar PV panels throughout the year, you can optimize your solar generation in Tirana, Albania as follows: In Summer, set the angle of your panels to 25° facing South. In Autumn, tilt panels to 45°; facing South for maximum generation.

What is the ideal angle to tilt solar PV panels in Albania?

So far based on Solar PV Analysis of 6 locations in Albania, we've discovered that the ideal angle to tilt solar PV panels in Albania varies between 35°; from the horizontal plane facing South in Tirana and 34°; from the horizontal plane facing South in Vlorë.

How much solar energy does Tirana produce a day?

Average 5.74 kWh/day in Spring. To maximize your solar PV system's energy output in Tirana, Albania (Lat/Long 41.3253, 19.8184) throughout the year, you should tilt your panels at an angle of 35°; South for fixed panel installations.

At NVM, we specialize in providing comprehensive solar panel installation services for both residential and commercial clients. Our goal is to make the transition to solar energy as seamless as possible, ensuring that each system is designed, installed, and optimized for maximum efficiency and long-term performance.

As a leading solar panel engineering company based in Albania, we specialize in providing comprehensive solar energy solutions. From installation and configuration to energy transmission networks, we are your trusted partner in achieving energy independence and ...
