

Recently, the Turkish government has announced new regulations on the import of solar cells, which will come into effect within 30 days from the date of publication. In 2021, Turkey has made it mandatory to calculate the import duty on solar modules in kilograms, instead of square metres as previously stipulated. Under the government's new algorithm, the ...

Solar panels offer a smart energy solution for home and business owners and allow them to buy electricity at a set price per unit. This means homes and commercial properties of consumers will never be exposed to increased energy prices again, which will financial forecasting a lot easier.
