Solar panel system for factory Aruba

service company that helps to secure your financing, install your system and takes care of all the required paperwork.

Mister Green is 100% focused on solar panel systems. How do solar panels work? Solar panels are made up of photovoltaic (PV) cells which convert sunlight into direct current (DC) electricity, during the day. The electricity is fed to an inverter which converts the electricity into grid-compatible AC power, (which is what is used in your home).
