I guess he can now sell his solar panels for a little more and make some more money. Let me get my little calculator going. If the program is for 4.4MW that's 4.4 million watts and rooftop solar panels cost \$2-3 per watt to install, that is over \$10 million in business for the roof top industry.

While acknowledging people may find that timeframe very long, "to get to 25% by using solar alone would require 100MW of solar capacity or 20 of these (solar farm) projects taking up approximately 500 acres of land, or rooftops, and costing approximately \$250 million", he explained, adding that price tag would not include the cost of ...
