

Welcome to Solar-Iraq, our web portal in Arabic, Kurdish, and English - a one-of-a-kind resource for energy experts and everyone who is passionate about clean energy solutions in Iraq. Explore solar PV and energy efficiency solutions for end users, sellers, buyers, trainees, trainers, individuals, and professionals.

In a small village in the mountains of Iraqi Kurdistan, solar panels adorn most homes, part of a small but growing effort to harness the sun's energy in Iraq, where electricity is scarce.

Iraq's solar plans announced in November 2021 call for the addition of 12 gigawatts of solar capacity by 2030. Some 7.5 gigawatts of the planned solar capacity are to come from utility-scale solar plants, and Iraq has reached agreements with developers - at varying stages - for projects that will add 4.5 gigawatts of the total.

The facility, set to be located in the Basra region of Iraq, will feature 2 million high-efficiency bifacial solar panels mounted on single-axis trackers. The partners will develop the project in phases, aiming to commission them between 2025 and 2027, QatarEnergy said.

The facility, set to be located in the Basra region of Iraq, will feature 2 million high-efficiency bifacial solar panels mounted on single-axis trackers. The partners will develop ...

Iraq is finally proceeding with the country's first big solar power plant. The Baghdad government has stepped up the effort to adopt a more environmentally sustainable energy policy that includes combining renewable energy ...

This strategic project, which will be one of the largest in the world, will consist of 2 million high-efficiency bifacial solar panels mounted on single-axis trackers and will, upon its completion, be capable of supplying up to 1.25 gigawatts (peak) of solar-generated power to the electricity grid in the Basra region of Iraq.

One of the essential tools Iraq has in its fight against climate change is the infinite potential of the sun as a source of energy. In a sun-rich country like Iraq, solar solutions are a cornerstone in the transition towards renewable energy and achieving the Paris Agreement commitments by 2030.

Energy house the best energy provider in iraq Generate and store your own power with Energy House. Start saving today using clean, eco-friendly energy. Our solar panels and inverters are ...

(Sungrow, 11 c.2023) -- In a strategic move toward harnessing the untapped potential of Iraq's solar landscape, Sungrow is taking the lead in shaping the nation's green energy sector. Iraq's Minister of Oil, Ihsan Abdul Jabbar, ...

One of the essential tools Iraq has in its fight against climate change is the infinite potential of the sun as a source of energy. In a sun-rich country like Iraq, solar solutions are a cornerstone in the transition towards renewable energy and ...

Iraq is finally proceeding with the country's first big solar power plant. The Baghdad government has stepped up the effort to adopt a more environmentally sustainable energy policy that includes combining renewable ...

To encourage renewable energy, Iraq's Central Bank in 2022 announced the allocation of \$750 million in almost zero-interest loans for individuals and private companies adopting solar power. But the initiative is ...

Start saving today using clean, eco-friendly energy. Our solar panels and inverters are of the highest quality and most cost-efficient in the region. ... completed over 9,000 solar PV installations in the Middle East and are ...

This strategic project, which will be one of the largest in the world, will consist of 2 million high-efficiency bifacial solar panels mounted on single-axis trackers and will, upon ...

(Sungrow, 11 c.2023) -- In a strategic move toward harnessing the untapped potential of Iraq's solar landscape, Sungrow is taking the lead in shaping the nation's green energy sector. Iraq's Minister of Oil, Ihsan Abdul Jabbar, stressed the importance for Arab countries to prioritize high-efficiency, low-cost energy production to ...

An engineer examines solar panels installed on the roof of the Electricity Directorate in Sulaymaniyah in northern Iraq's autonomous Kurdish region. In a small village in the mountains of Iraqi Kurdistan, solar panels ...

To encourage renewable energy, Iraq's Central Bank in 2022 announced the allocation of \$750 million in almost zero-interest loans for individuals and private companies adopting solar power. But the initiative is 'stalling due to a lack of cooperation from banks', according to Mohamed al-Duleimi, an expert in renewable energies.

An engineer examines solar panels installed on the roof of the Electricity Directorate in Sulaymaniyah in northern Iraq's autonomous Kurdish region. In a small village in the mountains of Iraqi Kurdistan, solar panels adorn most homes, part of a small but growing effort to harness the sun's energy in Iraq, where electricity is scarce.
