The Government's National Energy Policy (NEP) is on track to expand its solar energy capacity to 30% of total energy production by 2033. This goal is supported by the Inter-American Development Bank (IDB) and the Bahamas Development Bank (BDB). Currently, solar power makes up less than 1% of all energy generated in The Bahamas.

TotalEnergies and the Aljomaih Energy & Water Company (AEW) have been awarded a 300MW solar power project, Rabigh 2, in Saudi Arabia. The consortium signed a 25-year power purchase agreement (PPA) with the Saudi Power Procurement Company (SPPC) during the 2024 visit of French President Emmanuel Macron to the Kingdom.

The latest release of The Bahamas National Energy Policy documents the country's plans to implement renewable energy generation. This will introduce net-metering, which is the recording of energy flows in both directions. As the Bahamas has close to six daily peak sun hours.
