

Iraq has one of the highest solar irradiation levels in the world, according to a study conducted by the trade association of the German solar energy industry on behalf of GIZ in 2023. The ...

State-backed QatarEnergy and France's TotalEnergies have signed an agreement to develop a solar power plant as part of the gas growth integrated project (GGIP) in Iraq. The two companies will equally own the project, but the ...

TotalEnergies has announced plans to develop a 1 GW solar power plant in Iraq to supply electricity to the Basrah regional grid. The project is part of the Gas Growth Integrated Project (GGIP), which aims to enhance the development of Iraq's natural resources and improve the country's electricity supply.

Iraq is finally proceeding with the country's first big solar power plant. The Baghdad government has stepped up the effort to adopt a more environmentally sustainable energy policy that includes combining renewable energy ...

Iraq is finally proceeding with the country's first big solar power plant. The Baghdad government has stepped up the effort to adopt a more environmentally sustainable energy policy that includes combining renewable ...

1.1 Gas-to-power or power-from-Sun? Introducing solar energy in Iraq will undoubtedly harness the country's energy security. Fuel shortage (mainly natural gas) has blighted Iraq's power generation for years⁸.

Iraq is planning to build solar plants and its first green hydrogen project as part of a strategy to tackle power shortages and reduce its carbon footprint. The country's cabinet has approved a proposal to install 12 ...

Iraq is planning to build solar plants and its first green hydrogen project as part of a strategy to tackle power shortages and reduce its carbon footprint. The country's cabinet has approved a proposal to install 12 gigawatts (GW) of solar power by 2030, said a National Investment Commission representative, Rahim Al Jaafari.

Iraq has one of the highest solar irradiation levels in the world, according to a study conducted by the trade association of the German solar energy industry on behalf of GIZ in 2023. The country's abundant sunlight provides the basis for ...

Welcome to Solar-Iraq, our web portal in Arabic, Kurdish, and English - a one-of-a-kind resource for energy experts and everyone who is passionate about clean energy solutions in Iraq. Explore solar PV and energy efficiency solutions for end users, sellers, buyers, trainees, trainers, individuals, and professionals.

Solar power from Iraq

Iraq has one of the highest solar irradiation levels in the world, according to a study conducted by the trade association of the German solar energy industry on behalf of GIZ in 2023. The country's abundant sunlight provides the basis for solar energy production.
