### Solar power toys remote control

What is my very own Solar System from Brainstorm toys?

With My Very Own Solar System from Brainstorm Toys, you can explore the wonders of the universe from your own room. This remote- controlled, motorised mobilehas eight detailed colour planets that orbit the sun. Setting up your solar system has never been easier! Assemble the planets onto the three independent orbit mechanisms on the sun.

#### How does a solar system mobile work?

Remote-controlled,motorised,85cm diameter solar system mobile Includes 8 detailed colour planets rotating on three independent orbits around the sunThe illuminated sun makes an attractive night light No mains electricity required,simply mount the mobile onto the ceiling with the enclosed hardware

#### How does a solar-powered car work?

A solar-powered car, such as the Pica Toys Solar-Powered Car V1, works by converting sunlight into usable electric energy. This combination of power sources enables the car to move seamlessly from areas without direct sunlight to locations where solar power is available, making it both energy-efficient and convenient. Solar power is generated from the sun in the form of electric energy.

#### How does a solar system work?

Simply assemble the planets onto the three independent orbit mechanisms on the sun and mount to the ceiling with the included fixings. Once mounted onto the ceiling the solar system is 85cm diameter at it's widest point. Use the remote control to operate the light up sun and rotation of the planets.

#### What can I do with a solar power system?

There is something here for one and all! Solar, wind and water powered model robots, moving fun animals, Aluminium cyclists, exquisite wooden helicopters, Stirling engines that work sitting on your hand! Powerful solar powered or wind up torches and lighting for all your camping and outdoor living needs.

#### How do I set up my own Solar System?

This remote- controlled, motorised mobile has eight detailed colour planets that orbit the sun. Setting up your solar system has never been easier! Assemble the planets onto the three independent orbit mechanisms on the sun. Then, mount the My Very Own Solar System to the ceiling with the included fixings.
