

How much does solar power cost in Algeria?

Algeria's Hamdi Eurl won two 80 MW plants and domestic PV panel maker Zergoun, alongside Ozgun, secured 80 MW in Guerara. The 19 projects represent an investment of EUR1.8 billion (\$1.96 billion) and the solar power prices proposed by the bidders ranged from EUR0.54/W to EUR0.81/W, with an average price of EUR0.625/W.

How many solar projects are being built in Algeria?

Representatives of Algerian state-owned utility Sonelgaz have signed contracts with local and foreign companies for the construction of 20 solar projects from two tenders. A total of 19 contracts have been signed by representatives of Algerian state-owned utility Sonelgaz for the construction of 20 solar projects with a cumulative capacity of 3 GW.

What are Algeria's New 3 GW solar tenders?

Algeria's new 3 GW solar tenders mark a major shift in its energy landscape, aiming to expand solar beyond remote areas and develop a local renewable energy sector. With high solar potential, the tenders reflect Algeria's commitment to reduce its reliance on gas and boost domestic solar capacity.

Will Algeria build a solar PV plant?

The state owned utility for electricity and natural gas distribution in Algeria has signed 19 contracts with local and international companies to construct solar PV plants. In making the announcement recently, the government said the project to produce 3,000MW of solar PV energy is part of its Renewable Energy Development Programme.

Where are solar panels made in Algeria?

Alongside Zergoun, the manufacturer Lagua Solaire has 200 MW of annual capacity for solar panel production in Algeria. The production plant of Algerian telecommunications and renewable energy company Milltech has a facility in Mila, in the east of the country, with a production capacity of 100 MW for M3-based modules.
