

Solar units for home Lesotho

Solar PV & Battery Technology. Powered primarily from solar energy, these mini-grids minimize the carbon footprint of energy access by optimizing engineering design of battery storage and a backup generator to ensure power flows even when the sun is down.

At Solar African Legacy PTY LTD, we specialize in delivering comprehensive solar energy services across Lesotho. From installing off-grid solar power systems and solar geysers to refurbishing panels and providing clean energy accessories, our goal is to empower communities with sustainable energy.

Solar energy offers a cost-effective and reliable way to power homes and businesses in Lesotho. There are several solar energy projects already in place, such as photovoltaic systems, solar water heating systems, and solar-powered irrigation systems.

Affordable and easy-to-install, solar home kits empower households with access to clean energy for powering essential appliances and devices. These kits typically include solar panels, batteries, LED lights, and mobile phone charging ports.

High-Quality Solar Products. We offer top-tier solar panels, inverters, batteries, and other components from trusted manufacturers, ensuring reliability, efficiency, and longevity for your solar system.
