

Solarstone energy Belarus

Who is Solarstone - the Estonian solar roofing startup?

Solarstone - the Estonian solar roofing startup secures EUR10 million in funding. With these funds, Solarstone intends to expand building-integrated solar PV solutions across Europe and beyond. The company's mission is to make building-integrated solar solutions the standard in residential and infrastructure construction.

What makes Solarstone unique?

Solarstone stands out in the solar industry with its holistic vision for future homes. Their innovative product range, including the Solar Full Roof, Solar Tiled Roof, and Solar Carport, is designed to create an integrated energy ecosystem where each element of the home contributes to sustainability.

Where is Solarstone based?

Solarstone's factory in Viljandi is located on an area of 1,200 sqm, where anyone can pay a visit (with prior notice) and get acquainted with the product range. „With today's setup, we can produce 20,000 tile interlocking solar modules per year, resulting in approximately 715 design solar roofs and 25,000 Click-on kits.

What does Solarstone do?

Solarstone oversees the consultation, design, and installation of the Solar Full Roof. For renovation projects, homeowners or their chosen contractors should remove the old roof and set up wooden battens per our guidelines. Once that's done, our team or a certified partner steps in for the Solar Full Roof(TM) installation.

Why is Solarstone investing 700th solar roof installation in 8 countries?

The investment follows the 700th solar roof installation in 8 countries. According to Silver Aednik, co-founder and CEO of Solarstone, energy production and consumption patterns are undergoing a major shift, with prosumer-generated capacities balancing the shortcomings of centralized energy generation.

What are Solarstone building-integrated solar panels?

Solarstone building-integrated solar panels are compatible with all common roofing materials. They fit into place seamlessly as the panels are invisible to the naked eye. By integrating solar technology directly into the roof structure, you can bypass the costs associated with traditional roofing materials and their installation.

Solarstone provides execution and crystal clear insights for project development in the new energy economy. We are developers, serving asset owners, investors, and intermediaries for renewables, energy storage, and the next generation of industry. Our portfolio is composed of utility and distributed-scale projects across the US.

Solarstone is a proptech company with an impact. We provide solar solutions people actually need by replacing old roofing concepts with sustainable and cost-effective multi-purpose technology so we all can become energy prosumers. Solarstone is The Solar Roof Company.
