Solel Solar Systems Ltd. (Hebrew: סולל) was an Israeli solar thermal equipment designer and manufacturer based in Beit Shemesh, Israel. Solel made equipment for solar thermal power plants, facilities that used the sun's heat to create steam and turn an electricity generator. In 2007, Solel signed a contract with Pacific Gas & Electric to supply 553 MW fr...

Solel Solar Systems Ltd is an Israeli success story and a world leader in the field of d thermo-solar energy solutions, geared to produce clean, renewable energy while adhering to an unparalleled standard of quality in high-temperature solar collectors and solar power stations. Solel's thermal technology enables the efficient conversion of ...

Siemens has purchased Solel Solar Systems, a designer and manufacturer of solar equipment for solar thermal power plants, for approximately \$418m (&#163;262m). Ecofin, a London-based investment firm that specialises in the global utilities, energy and environmental sectors, held a 63 per cent stake in Solel.

Solel Solar Systems Solel Solar Systems designs and manufactures solar thermal equipment for power generation. Acquiring Organization: Siemens Siemens empowers customers to transform the industries that form the backbone of economies: industry, transportation, buildings and grids.

Abstract: A solar system comprising a reflector and a heat collecting element (HCE) received at the focus of the reflector. The HCE comprises a coated tube received within a coaxial evacuated enveloping glass tube. The enveloping glass tube is secured at respective ends thereof to the coated tube by a coaxially deformable
