What is the Green Barbuda electricity project?

"The Green Barbuda electricity project has been a truly transformative one for Barbuda. It harnesses our indigenous renewable energy resources and has provided for the transfer of cutting-edge technologies as well as capacity building at the local level to manage the project," said Prime Minister Gaston Browne.

"The project supports Antigua and Barbuda's efforts to reduce its dependence on costly and volatile imported petroleum fuels and to develop our own renewable energy resources. At the same time, it also enables us in both adapting to and mitigating the adverse impacts of climate change."
