Famous for its fresh fish, timber and a number of other commodities, the collaboration at Port of Noro has allowed both shipment businesses to become the Solomon Islands' major tuna exporters, helping to consolidate the country's role within the global value chain by supplying local produce to the rest of the world.

ARTOIS CONTAINER TECHNOLOGIE, société par actions simplifiée, au capital social de 1000,00 EURO, dont le siège social est situé au 2 RTE DE BUCQUOY, 62217 MERCATEL, immatriculée au Registre du Commerce et des Sociétés de Arras sous le numéro 902172949 représentée par M Guillaume COQUEL agissant et ayant les pouvoirs nécessaires en ...

Solomon Islands Ports Authority (SIPA) is a statutory corporation established by an Act of Parliament. It is the entity responsible for maritime transport facilitation for both ports of entry (Honiara & Noro) in Solomon Islands. It is governed by local statutory frameworks and international guidelines in managing its daily operations.

This is a publication of the Government of the Solomon Islands. This report was prepared by Adrian Sammons and Doug Oldfield as individual consultants under the guidance and support of the Pacific Infrastructure

Advisory Centre (PIAC) in Sydney, Australia. PIAC operates under the coordination of the Pacific Region Infrastructure Facility (PRIF),

The Solomon Islands has granted a multi-million-dollar contract to a China based company for a project, funded by the Asian Development Bank (ADB), to upgrade an international port in Honiara. China Civil Engineering ...

The Solomon Islands has granted a multi-million-dollar contract to a China based company for a project, funded by the Asian Development Bank (ADB), to upgrade an international port in Honiara. China Civil Engineering Construction Corporation (CCECC) obtained the contract after submitting the only proposal in a crowded tender, reported Reuters.

The partnership paves the way for the collaboration to roll out the first of its kind pilot initiative; Less Than Container Load (LCL) Access to Export Markets Project, using innovative digital technology to address a significant bottleneck and barrier to export for small to medium farmers and growers across the Solomon Islands by enabling less ...
