What is South Africa's just energy transition investment plan (jet IP)?

In October 2022, the South African cabinet approved a five-year investment plan for the USD 8.5 billion package. The Just Energy Transition Investment Plan (JET IP) The JET IP is aligned with the Cabinet-approved National Just Transition Framework.

What is South Africa's just energy transition investment plan 2023-2027?

South Africa is developing its initial Just Energy Transition Investment Plan (JET IP) 2023-2027, setting out the scale of need and the investments required to contribute towards its decarbonisation commitments. It is built on the principles of the Just Transition Framework of procedural, distributive and restorative justice.

How will the energy transition affect South Africa?

Properly managed, the energy transition will benefit all. Renewable energy production will make electricity cheaper and more dependable, and will allow our industries to remain globally competitive. Investments in electric vehicles and hydrogen will equip South Africa to meet the global clean energy future.

What is South Africa's just energy transition (jet)?

In 2021, South Africa's Just Energy Transition (JET) was officially launched during COP26. The International Partner Group (IPG), consisting of the European Union, France, Germany, the United Kingdom, and the United States, made a landmark commitment of US\$ 8.5 billion.

What is South Africa's Energy Action Plan?

The Energy Action Plan is South Africa's plan to end load shedding and achieve energy security. Announced by President Cyril Ramaphosa in July 2022, it outlines a bold set of actions aimed at fixing Eskom and adding as much new generation capacity as possible, as quickly as possible, to close the gap in electricity supply.

How does the jet support South Africa?

The JET supports South Africa's commitment to reducing emissions to 350-420 MtCO₂-eq by 2030, as outlined in the 2021 Nationally Determined Contribution (NDC). Achieving this goal will require an estimated ZAR 1.5 trillion in investments over five years, supported by international financial aid, private investors, and development institutions.
