

South Africa solar hire purchase

Can I rent a solar system in South Africa?

It is quick and simple. With rent to own, solar energy is more accessible than ever in South Africa. We've included three of our most popular price plans for solar system rental, for you to get a good idea of what we can offer.

What is a rent-to-own solar system in South Africa?

Rent-to-own solar systems in South Africa allow users to pay a monthly fee for the use of the solar system without purchasing it outright. After a specified period once all payments have been made, ownership transfers to the user. What are the advantages of Rent-to-own? Is maintenance included in the rent-to-own agreement?

Why is solar hire a good option in South Africa?

With the rising cost of electricity in South Africa, solar hire offers a more predictable and often cheaper alternative. The fixed monthly payments under a solar hire agreement can help homeowners and businesses manage their budgets more effectively, shielding them from fluctuating energy prices.

What size Solar System do I need in South Africa?

Most South African homeowners need a 3kW or 5kW solar system, while some opt for an 8kW system if they have major power needs. You can choose the ideal solar system for your needs after contacting us for a site inspection and quote. Is it better to buy or lease a solar system?

Should I buy or hire a solar system?

When deciding between buying and hiring a solar system, several factors should be considered. Purchasing a solar system involves a higher initial cost but can lead to greater savings in the long run, especially when considering the decreasing cost of solar system technology. Owning a solar system also increases the value of your property.

Is Solar worth it in South Africa?

Solar is worth it in South Africa, especially with the country's inconsistent power supply. If you consider Eskom's electricity costs, a 5kW system could save you over R20 000 a year. Your solar energy system will pay for itself in just 3 - 5 years. What solar system do I need for my house?
