*How we worked out your Solar Savings. The estimated savings you can make with our Solar Savings tariff are based on a 2-3 bedroom home with a medium electricity demand of 2,700kWh (Ofgem), installing a 10 panel system with a 3.68kW inverter and a 10.5kw battery via a Good Energy package. It is estimated that you will export 20-25% of the power you generate.

The system has also been validated through successful deployment across project sites in the US. The utility company plans to deploy Maximo in the construction of the 2GW Bellefield project in Kern County, California - the largest solar-plus-storage project in the US, contracted with Amazon.. The Oak Ridge solar project in Louisiana, which also supports ...
