Who is Bramble Energy Limited?

Bramble Energy Limited |13,126 followers on LinkedIn. Powering Net Zero |Bramble is a technology company on a mission to drive transformational change in the energy sector worldwide. With their PCB-X platform, the company is accelerating global decarbonisation and creating viable clean energy.

What does Bramble energy do?

At Bramble Energy, the crux of all we do is to ensure that our clients maximize their profits by making wise decisions in energy purchase and utilization. What We Do ENERGY MANAGEMENT AND OPTIMIZATION We study our clients' energy usage and proffer technological solutions to reduce or completely cut out high energy consumption and wastage.

Where is Bramble energy located?

The company's ability to leverage the global high-volume PCB industry means that they are the first fuel cell company with the manufacturing capacity to supply gigawatts of fuel cell hardware, something the battery industry lacks. Where is Bramble Energy's headquarters? Bramble Energy is located in London, England, United Kingdom.

How much money has Bramble energy raised?

The company has also successfully raised £35 million from investors, indicating strong financial backing and confidence from the investment community. Additionally, Bramble Energy has launched the world's first hydrogen-electric boat, demonstrating innovation and the introduction of new products to the market.

How many investors does Bramble energy have?

Bramble Energy has 8 investors including Advanced Propulsion Centre UK and Kiko Ventures. How much funding has Bramble Energy raised to date? Bramble Energy has raised £35 million. When was the last funding round for Bramble Energy? Bramble Energy closed its last funding round on May 9, 2023 from a Grant round. Who are Bramble Energy's competitors?

Is Bramble energy growing?

Is Bramble Energy experiencing growth? Bramble Energy may be growing as it has significantly increased its workforce, expanding from eight employees in 2020 to over 80 employees currently. The company has also successfully raised £35 million from investors, indicating strong financial backing and confidence from the investment community.

Bramble Energy is an innovator of renewable energy technologies; designing and manufacturing high-performance, low-cost, fuel cell stacks using printed circuit board (PCB) materials and processes. ... ## Spain bramble energy resources ltd

Playing a vital role in Bramble's successful funding rounds, Vidal brings together his vast experience of project and supply chain management from the construction industry and the development and commissioning of hybridised portable fuel cell systems in his role as CCO at Bramble Energy.

The pioneering deployment of Cambridge Energy's NOMAD by ResourcesWA and CrossBoundary Energy is set to revolutionise renewable energy for Australian mining and resources operations - demonstrating the potential to execute projects simply, cost-effectively, and with less risk.

Bramble Energy has 78 total employees. What industry is Bramble Energy in? Bramble Energy's primary industry is Other Commercial Products. Is Bramble Energy a private or public company? Bramble Energy is a Private company. What is Bramble Energy's current revenue? The current revenue for Bramble Energy is . How much funding has Bramble ...

Bramble Energy is pleased to announce its latest development in its platform of PCBFC(TM) products. To address the market needs across a variety of use cases Bramble Energy has focused on developing technology which variously targets the lowest possible cost and the highest possible performance metrics. Bramble's PCBFC(TM) technology now delivers four ...

Power the hydrogen economy with PCB electrolyzers. Bramble's electrolyzers break down barriers to production. By harnessing manufacturing processes from the electronics industry, we produce high performance, very low-cost and massively scalable solutions.

Bramble Energy is pleased to announce a partnership with BOC Ltd, part of the Linde Group, to develop the Hymera 20. The versatile 20 W hydrogen fuelled power generator will launch in early 2018 and will be available directly from BOC Ltd. Bramble Energy Ltd is a spin out fuel cell company from the Imperial College and UCL.

Bramble Energy is a leading technology company specializing in the development and commercialization of innovative hydrogen fuel cell solutions. Leveraging its unique and patented printed circuit board (PCB) fuel cell technology, Bramble Energy aims to revolutionize the fuel cell industry by providing cost-effective, scalable, and easily ...
