I'm doing what I can to familiarize myself with the SPH\_10000TL-HU-US before purchasing. I don't want to find myself with a boat anchor hanging on the wall. Without mentioning names, I've been talking with what seems to be a very reputable distributor for solar components. They seem to be more Eg4 related and have little knowledge on the ...

Growatt 10kW Hybrid Inverter | SPH 10000TL-HU-US Discover the Growatt SPH 10000TL-HU-US 10KW Hybrid Inverter. This high-efficiency inverter supports 120/240Vac output, configurable battery charging, and versatile compatibility with grid or generator power. Features include smart battery charging, advanced monitoring with WIFI/4G/Bluetooth...

I'm sure that it's a high frequency split-phase unit. It wouldn't make sense to be anything else. The extra weight is probably due to a robust case with large heat sinks on the back. I wonder if that's why it's so quiet.

I read something about needing another device like the SPH 10000TL-HU-US if wanting to add batteries? Maybe the info was wrong. I'm looking for a 10kw to 12kw all in one grid tie inverter but wanted everything in one box. ... Hi guys, Second post. I'm in Japan (100v 60hz) and am researching the best inverter brand and model to buy for a DIY ...

The new Growatt SPH TL-HU-US version has a CN5 &quot;upper computer&quot; port and a CN2 USB port. Has anyone been able to successfully read one of these ports with SolarAssistant, Home Assistant or perhaps modbus directly? The manual doesn't give the pinout of the CN5 port. This is what SolarAssistant has for pinout of non-us version.

The Growatt SPH 10000TL-HU-US 48V 10kW hybrid inverter offers split phase output at 120/240Vac, allow maxmium 15000W PV input and It includes 3 built-in MPPTs and protection against overload, over temperature, and short circuits. Additionally,. It features configurable battery charging current and voltage, as well as A
