

Sri Lanka 50kw solar system

Once choosing the most suitable solar system we will provide a comprehensive solar system drawing along with a projected energy report at no cost. We also ensure to guide you through all the paperwork necessary to be approved for CEB or LECO requirement standards.

Power Hands Energy - As Sri Lanka's trusted Green Energy company, our solar systems are designed for high performance, reliability and long-term savings, and we're committed to each client relationship.

A Grid-Tied system is by far the most common type of residential PV system as well as the simplest and least expensive it connects to the electric utility Grid (CEB or LECO) and uses the grid for storage and backup of solar energy produced by the PV system.

We provide you a detailed overview of our prices which includes the prices of solar panel, inverters and also the installation cost. As one of the leading solar energy providers in Sri Lanka, we keep our prices clear and unhidden.

By partnering with global tier-one manufacturers, as well as selected local suppliers, we are able to offer high-quality and durable solar power solutions in Sri Lanka at the most affordable prices.

We are able to design a solar power system based on your home's roof space, sun direction, shading and your energy needs. Every step is performed together and you will be guided on all aspects during the project so you'll understand how your system is ...
