

Sri Lanka Solar energy generator prices

How much does a solar system cost in Sri Lanka?

Residential solar installations in Sri Lanka typically start at around 500,000 LKR to 750,000 LKR for basic setups. With a budget of 500,000 LKR, you can generally expect a solar system producing approximately 2 kW to 3 kW of power. If you have a budget of 750,000 LKR, the system size might range from about 3 kW to 5 kW.

How does a solar system work in Sri Lanka?

Solar Panels: These are the most visible components of a solar system. Solar panels convert sunlight into direct current (DC) electricity. The efficiency of these panels can vary, but in Sri Lanka, with its average solar irradiation of around 4.5 to 5.5 sun hours per day, solar panels can generate significant amounts of electricity.

Are residential solar systems a viable solution in Sri Lanka?

As energy costs continue to rise and concerns about environmental sustainability grow, many homeowners in Sri Lanka consider residential solar systems as a viable solution. A well-designed solar power system can significantly reduce electricity bills, contribute to environmental sustainability, and even provide a backup power source during outages.
