Northern Macedonia, a landlocked country in Southeastern Europe, is located on the Balkan Peninsula borders Kosovo to the northwest, Serbia to the north, Bulgaria to the east, Greece to the south, and Albania to the west.. Skopje, the capital and largest city, serves as the political, economic, and cultural center of the country. Other significant cities include Bitola, ...

"Natural hazards disproportionately affect vulnerable sectors, especially agriculture, where small family farms are affected by droughts and hail due to inadequate irrigation, hail protection, and insurance," says Massimiliano Paolucci, World Bank country manager for Kosovo and North Macedonia.

The Republic of North Macedonia is a small, open economy with a sizable and diversifying service sector and an expanding manufacturing base. The economy is dominated by services, which account for 54.5% of gross domestic product (GDP) (World Bank, n.d.[1]) and 55% of employment (ILOSTAT, 2021[2]).

A pivotal 12 months could be in store for North Macedonia. Parliamentary and presidential elections await, while economically--after a period of moderate growth--the landlocked Balkan nation is gearing up for a year that could potentially mark a ...

In the Global Innovation Index, North Macedonia ranked 54th in 2023 with 33.0 points. The index is calculated annually by the World Intellectual Property Organization (WIPO) and most recently included 129 countries. The top country was Switzerland with 67.6 points. Development of gross domestic product in billions of USD 1990 - 2023

Agriculture in North Macedonia is an important contributor to the economic and social development of the country. The country has a negative agricultural trade balance that has expanded lately due to constraints on domestic agricultural production, and increasing demand driven by improving consumer incomes and developing tourism, food service, and retail trade.
