What makes a good small sheep barn?

Our small sheep barn offerings use hot dip galvanized steel frames and durable, HDPE fabric to maximize ventilation, allow for plenty of natural light, and improve energy efficiency in the space. Contact Us You need a sheep barn you can rely on to withstand the elements and provide optimized airflow for your livestock.

Are sheep structures modest?

Sheep are modest by nature; and they are, relatively, modest in size. So, it is perhaps not surprising that the structures for them can be, and usually are, modest too. While there are a variety of roles and functions needing to be fulfilled by sheep structures, in essence only few different structure types are necessary.
