Where can I buy a small wind turbine?

If you want low-effort shopping and are OK with lower output, there are small wind turbines for home on Amazon--like the Auecoor 800W 12V 24V Solar Panel Wind Turbine Kit and the ultra-budget Pikasola Wind Turbine Generator Kit --that can help you take some load off the grid without spending in the thousands.

What is the best freestanding wind turbine for your backyard?

If you're looking for a freestanding wind turbine for your backyard that you can order online, the Automaxx Windmill 1500W is a powerful--if expensive--option. It offers a hearty 1,500 watts of continuous output and operates at a relatively wide range of wind speeds.

What is the best home wind turbine?

It will also survive winds up to 90 mph, so it should still prevail if you do have the occasional extreme gust. While the Prime Windpower Air 40 remains the best home wind turbine for most people and a non-scary, affordable entry point, you may want bigger if you want more power. That's just how it works for wind energy.

Who makes Suzlon wind turbines?

Suzlon is one of the world's leading manufacturer of wind turbines and service providers that carry the hallmark of reliability and sustainability with over twenty-seven years of operational track record.
