Our sparky recommended a Swatten inverter and battery, so we gave it a go. They kicked off the solar panel install around 8am. They started putting in the inverter and battery around 3pm, and by the time I got back from picking up kids, they'd wrapped everything up. The system looks pretty neat and compact. It's all up and running straight ...

Our selection of Swatten solar batteries includes a variety of models designed for different project sizes and energy specifications. Whether for small residential systems or large commercial installations, Swatten batteries are equipped with intelligent energy management systems, ensuring optimal performance and real-time monitoring.

Swatten battery Marshall Islands

Swatten's F1 Series is a stackable Battery Energy Storage System (BESS) designed for residential and small commercial use. The system is modular, supporting 3-8 modules with total energy capacities ranging from 9.6kWh to 25.6kWh.

Swatten says the H1 can provide whole-home backup functionality and multiple modes: self-generated, zero power feeder (assumed to mean zero export), VPP, battery-free, and battery-free & gridless. It can switch to off-grid in under 10ms.
