

Synergy battery storage São Tomé and Príncipe

How is synergy boosting battery energy storage in WA?

The project is funded by the WA state government as part of its plan to expand battery energy storage across the region. Construction is expected to be completed by the end of 2025. This isn't the first time Synergy has made ambitious efforts to boost battery energy storage in the area.

When will synergy's Kwinana battery Stage 1 be completed?

Construction is expected to be completed by the end of 2025. This isn't the first time Synergy has made ambitious efforts to boost battery energy storage in the area. Synergy's Kwinana Battery Stage One has been sending power to the South West Interconnected System since its completion in May 2023.

Where is the battery storage project located?

Located at the site of Collie Power Station, a coal-fired power plant scheduled for decommissioning in 2027, the battery storage project is one of two being funded with AU\$2.3 billion (US\$1.52 billion) from the Western Australia State Budget 2023-2024.

Does synergy have a Kwinana battery?

Synergy's Kwinana Battery Stage One has been sending power to the South West Interconnected System since its completion in May 2023. The company also has a second Kwinana project under construction, which is slated for completion in late 2024.
