

What type of energy is primarily used in Syria?

In Syria, most energy is based on oil and gas. Some energy infrastructure was damaged by the Syrian civil war. In the 2000s, Syria's electric power system struggled to meet the growing demands presented by an increasingly energy-hungry society.

How much oil does Syria produce a day?

****Prior to sanctions, Syria produced some 383,000 barrels per day (bpd) of oil and liquids, according to previous analysis by the U.S. Energy Information Administration (EIA). **Oil and liquid production fell to 40,000 bpd in 2023, according to separate estimates from the Energy Institute.**

Why is energy demand increasing in Syria?

Energy demand in Syria has been increasing at a rate of roughly 7.5% per year due to the expansion of the industrial and service sectors, the spread of energy-intensive home appliances, and state policies that encouraged wasteful energy practices, such as high subsidies and low tariffs.

What happened to Syria's electricity sector in 2021?

In 2021, Syria's Ministry of Electricity estimated total losses to the electricity sector at USD 2.4 billion due to infrastructural damage and acute shortages of fuel and water needed to power Syria's thermal and hydroelectric infrastructure.

What happened to Suncor Energy in Syria?

****Canada's Suncor Energy Inc suspended its Syria operations in 2011. Its primary asset is the Ebla development located in the Central Syrian Gas Basin covering more than 300,000 acres (approximately 1,251 square kilometres). The gas field was producing 80 million cubic feet of natural gas per day.**

Is Syria a major oil producer?

Syria, which is not a major oil producer, has endured severe economic damage over the course of a nearly 15-year civil war. The nation occupies a key strategic post in the oil-rich Middle East, neighboring regional powers Israel and Turkey. The Assad regime had allied closely with Iran, one of the world's key oil exporters.

Und wir werden an dieser Stelle nicht aufhören! Wir arbeiten mit den besten Namen in der Branche zusammen. Menlo Electric ist derzeit einer der Top-3-Vertriebspartner von Jinko Solar und Risen Energy sowie ein offizieller EU-Vertriebspartner von JA Solar, Sungrow, SolarEdge, Solax, Tsun, Deye, FoxESS, Photonica.
