A solar power plant will soon be built in São Tomé and Príncipe. The government of this Central African island country has chosen to build the plant south of Santo Amaro, a town located in the north of the island of São Tomé. The project is now subject to a call for tenders by the Santomean Ministry of Infrastructure and Natural Resources.

São Tomé and Príncipe is verging on a breakthrough ocean thermal energy project that could pave the way for other nations. In April, the small island nation in the Gulf of Guinea granted UK-based firm Global OTEC approval for the island's first commercial-scale ocean thermal energy conversion (OTEC) platform.
