Who is Jurchen technology?

Jurchen Technology supports customer's projects through planning, construction, commissioning, and operation phases. Our team is highly specialized and focused on providing solar solutions since 2008 with a long history of redefining solar providing innovative, optimized, cost efficient substructure and DC cabling solutions.

Who is Jurchen solar?

Active globally, Jurchen offers its customers know-how from the start of the project development to the acceptance of solar construction work. Jurchen has technical know-how supplied to over 500 solar projects in 6 continents, with over 3.6 GW of substructure and 4.2 GW of DC cabling.

Why should you choose Jurchen technology?

Our German in-house R&D center performs rigorous durability testing to guarantee a safe and long-lasting product. Additionally, our engineering team is able to provide solutions that are simplified and customized to customers' needs. Jurchen Technology supports customer's projects through planning, construction, commissioning, and operation phases.

Quito, Ecuador -- July 01, 2024 -- SolarTeam is proud to announce the successful completion of Ecuador's largest ground mount solar projects for corporate clients including 2.4 MWp ...

Jurchen Technology, Belectric's daughter company, will present a new package at this year's InterSolar trade fair in Munich, which combines its innovative PEG substructure ...

Jurchen Technology specializes in manufacturing high-quality substructure and DC cabling for solar power plants. We take pride in the quality of our materials and workmanship insuring our products are built to last even under the toughest conditions.

Patented Mounting System for Solar Power Plants Increase Your Land Yield by 225% The PEG provides a unique simplified high-density ground mount solution that produces 225% more land yield versus trackers and fixed tilt systems.
