The location at Dushanbe, Tajikistan, which is in the Northern Temperate Zone, is good for generating energy using solar power but it's not perfect. The amount of energy you can get from solar panels varies throughout the year. In simple terms, the best time to generate solar power in Dushanbe would be during the summer when you can expect around 8.12 kilowatt hours per ...

We offer a wide range of solar-related products, including solar panels, solar inverters, solar batteries, solar mounting systems, and solar accessories. Our products are sourced from reputable manufacturers and undergo rigorous quality control processes to ensure their reliability and performance.
