Tgc renewables Belize

Renewable Energy Projects Belize has an abundance of hydropower, which currently provides nearly half of the country's electricity. Belize also has good to moderate land-based wind resources (Class 3-4). Full solar and biomass resource assessments are unavailable.

TGC Renewables director Rob Denman said that this was one of a number of multi-megawatt projects that the company had in development, responding to interest from the farming community. The company currently had more than 10 MW in operation or under construction and aimed to boost the figure to more than 100 MW over the coming year and a ...
